Preface

Dear customers, thank you very much for your interest in and choice of the Aerial work platform of HANGCHA GROUP CO.,LTD.

You should pay attention to the following points when using our products:

1. Comply with local laws and regulations;
2. The operation manual contains important information about the products. Please carefully read all contents of the operation manual before use. After you are familiar with and correctly understand the operation instructions of the manual, you can operate in strict accordance with the requirements of the operation manual.
3. Most possible safety hazards and operational precautions are included in the manual. However, due to the complexity and variability of actual working conditions, the manual cannot cover all risks and safety hazards. It is necessary to ensure the absolute safety of operators during the operation to ensure that the operation will not cause damage to the product.
4. The technical parameters, diagrams, forms, etc. contained in the manual are all the latest version when the manual was written. Due to the continuous update of products and technologies, the company reserves the right to update technical parameters and relevant information without prior notice. If the manual is inconsistent with the actual product, please ask our after-sales staff for the latest information.

Before you order accessories, please first confirm the following situation:

1. What kind of car is the part you want to order?
2. Which part or system do you want to order parts from?

3. After determining which part or system part, the corresponding page number is found in the parts catalogue (table);
4. The serial number of the corresponding part is found on the page number, and the name of the figure number of the part is found in the list of parts.
5. If you want to place an order, you need to tell us the quantity you need in addition to the above information.
